MESSAGE FROM THE BOARD

As a vendor, I was cleaning up my booth area on the last day. I was reflecting on the many contacts that I had made. I was thinking about all of the follow up requests that I had received from various attendees. To be honest, I was tired. I was ready to call it a day and get some rest. In the middle of this moment, one of our members came up to me and thanked me for the years of service I have given to the chapter.

As a vendor, I have always supported the chapter and its goals. I wondered what type of service this person was talking about? Then it dawned on me, my time as a board member is coming to a close.

I thought maybe I would take this opportunity to let you know what I have done as a board member. When I was nominated many years ago, my main focus was to upgrade the... CONTINUED ON NEXT PAGE.

June’s Meeting:
Topic to be determined
Coordinator: Midway City
June 17, 2015
Time: 12:00P.M.

Gary Pugmire
3-Year Board Member
All good things must come to an end. Our Spring Fling Conference turned out to be another great training session for our attendees. There was positive feedback from every class that was held. It is a lot of work and effort to line up instructors, decide which classes will be beneficial to attendees, and last but not least, will there be enough food? I tip my hat to everyone that is involved in setting this up. Now that it is over, we are already planning for next year.

See Pgs. 6-9 for photos from this year’s Spring Conference held in Provo from May 12-14th.
BOARD ARTICLE (Continued)

bylaws of the chapter. When I read them, they looked outdated and incomplete. There was mention of communication to members that did not include verbiage with regard to digital communication that we all use now. There were open-ended references to elections and duties of the board and officers. I am proud to say that the bylaws were rewritten during my term. I believe this has given new life to the chapter officers and board members. I also believe that it has given more members the opportunity to serve.

A few other things I have done as a board member is to invigorate other vendors to support the chapter. I have worked to create a spirit of comradery amongst members. I have worked with the board to find ways to improve our website communications. A special thank you to Jim Yeoman’s help with this also. I have helped with nominating committees and elections. I have helped keep our summer social a fun event that lets our spouses and others come and meet the fun people we associate with. I will continue to work with the chapter for as long as I can see into the future.

One last thing, I am most appreciative of the friends I have gained. I have become better friends with the likes of our past president Gary Hoglund, our current president Kent Partridge, Jim Yeoman, Brad Carlisle, George Reid, John Little, Dennis Thomas, Greg Larsen, and many others. This would have never happened if I did not accept the nomination and become a board member of the Beehive Chapter of the ICC. I thank everyone that supported me in this, and I hope that my time was well spent on the chapter’s behalf.

Like I said, all good things must come to an end. I am grateful and thankful for my time that was spent as a 3-year Board Member with the Beehive Chapter.

CONFORMITY CORNER by Kent Partridge, 1st Vice President

No Deck at Final Inspection

- Will you allow the builder to place a guard, securely attached across the door opening, in lieu of the deck that was proposed on the approved plans? The reason for not installing the deck is the owner has run out of funds and would like to do the deck at a later date or the deck shown on the plans was a small 4x4 porch and the owner would like a much nicer, larger deck but can’t get it done for a few months. Why put on a smaller deck just to tear it off in a few months?

Self-Closing Device

- Do you require a self-closing device on the door to the garage? Do you require the door to self-close? How does the door self-latch if the door does not self-close? This question was asked earlier in the year but I was asked to discuss it once again.

We will discuss both of these topics at our next monthly meeting, May 20, 2015.

THE FUTURE OF CODE PROFESSIONALS IN UTAH (May Training)

This month’s Beehive Chapter meeting will include a presentation by George Williams regarding the future of code professionals in Utah. Many of you likely participated in George’s industry-wide survey earlier this spring. The results of this demographic survey will be summarized and presented at this meeting. In addition George has pulled over 20 years of DOPL licensing data as well as Utah specific ICC data in an effort to evaluate trends within our local code community. Apart from presenting a wealth of information, this meeting will be an open forum for discussion regarding what can be done to ensure that the Code Professional Industry is ready for the future. We encourage your attendance and participation.

SURVEY OF BEEHIVE MEMBERS

The Beehive Chapter Board is in the process of putting together the plans for next year’s Spring conference. In our preliminary discussions we have been conflicted as to what month is best to hold the conference, where the conference should be held, what classes we should offer, etc. Each of our current members should have received an email from SurveyMonkey.com recently where we are asking for your input into these topics. We will take your feedback to heart and will try to organize the best conference possible to meet the desires of our members. Please take five minutes to complete this survey as soon as possible.

Sincerely,

The Beehive Chapter Board

BOISE CASCADE LAUNCHES NEW WEBSITE

Boise Cascade recently re-launched its website, and added a great deal of technical information to assist Building Inspectors, Designers, and Builders to properly use and install their products. Please feel free to refer colleagues and associates to: www.bc.com. Once they are on the site, they should select the “Manufacturing” tab, then the “more resources” tab on the right side of the screen. Many technical notes including installing V-4 glulam beams upside down, minor flange cuts, side loaded quadruple Versa-Lam beam connections, etc. are discussed. We will have another excellent resource available towards the end of 2015, and I will send you an update at that point.

Thanks,

Bill Lancaster
Area Manager

Boise Cascade
The 2015 Conference was a great success! We are grateful to all that were able to attend and hope that you enjoyed the training and comradery. A big thanks to the Beehive Chapter Board for their efforts in putting together this year’s conference! We would also like to thank all of our instructors for the great training that they provided! Please review the following photos for some images from the conference.

Registration table with new Beehive Chapter banners!

Thanks to TrusJoist for sponsoring the conference!

Thanks to Simpson for sponsoring the conference!

Thanks to Duradek for sponsoring the conference!
Thanks to Earthtec for sponsoring the conference!

Thanks to Kimball Eng. for sponsoring the conference!

Thanks to Boise Cascade for sponsoring the conference!

Thanks to Alder Sales for sponsoring the conference!
The food and scenery was outstanding!
SPRING CONFERENCE (Continued)

You guys should be in class!

There were a lot lounging on the couches...

We know you all come for the prizes!

We love the new Beehive Chapter banners!
Everyone stayed awake for Jay Woodward’s classes.

Greg Anderson taught so fast he was blurry!

Scott Adams kept us up to speed on fire issues.

Everyone was sleeping in Chris Kimball’s classes!
