WELCOME: Dave Johnson- President

Motion to Approve the June 17<sup>th</sup> , 2009 minutes, Wendy Johnson, 2<sup>nd</sup> Gary Hoglund, Unanimously approved..

Our highly regarded President, Dave Johnson, welcomed everyone in attendance and turned the time over to Kent Partridge and Wendy Johnson to talk about attic insulation/furnaces and foundation flashing respectively. A short discussion ensued for each topic.

Following these discussions Dave introduced Paul Thorley P.E., Acute Engineering. Paul has his offices located in Orem and is well-respected and known to all of us. He spoke to us on *Timber Framing*.

Two of the more well-known companies in our area are Euclid and Timberworks. Paul has felt that there are not too many engineers that specialize in this area so he has performed extensive research and modeling of how timber framing “*acts and reacts*”.

His research has shown to always strive to use DF #1, make it mandatory to get Grade Stamping, use the 1 inch white oak pegs/dowels, and try to get “clear heart” as lesser woods tend to twist. It was a great class and, if you were attentive, you learned quite a bit about timber framing. If you weren't in attendance you missed out on this great presentation and lunch provided by the Chapter.

The August Bar-b-que was well attended and everyone went home “stuffed” and all attendees received either a \$20.00 gift certificate to Cabelas or their choice of hand lotions from Victoria's Secret. All attendees to the Beehive Chapter Annual Business Meeting, to be held at Cabelas, December 9, 2009, will also receive a \$20.00 gift certificate to Cabelas, so mark this date on your calendar, now!
